This third annual sculpture exhibit, the largest in the Boston area, is an excellent presentation of three dimensional contemporary artwork in diversified medias and imagery. The work is selected from a wide range of artists and sources - faculty members and students from area colleges, members of the New England Sculptors Association, L'Attitude Gallery of Boston and sculptors from across New England. Parameters guiding the Committee's selection of work include cohesive demonstration of concept, presentation, innovation, imagery, aesthetics and permanence.

All works are available for purchase. For additional information about the artists, works exhibited, and purchasing, please contact Michael A. Guadagno, director of the Barn Workshop Gallery at 978.774.3042.
